ROOMMATE GUIDANCE FOR OFF-CAMPUS RESIDENTS

Living with others during COVID-19 presents some unique challenges and considerations, and the safety advice can often be confusing.

Let's start with the basics:

INSIDE THE RESIDENCE

- Limit visitors or guests inside your residence.
- Wash your hands often.
- Stay at least 6 feet apart from others.
- Wear a face covering over your mouth and nose when around others.
- Meet outdoors where you can stay 6 feet apart. Avoid crowds.
- Do not share dishes, cups, or utensils.
- Clean & disinfect frequently touched surfaces daily.
- If you share a bathroom, remember that sinks could be an infection source. Totes or caddies can be used for personal items so they don’t touch the bathroom countertop; bring your tote back to your personal space rather than leaving it in a shared bathroom.
- Each person should use their own hand or face towels.

OUTSIDE THE RESIDENCE

- Wear a face covering in public, especially while indoors.
- Practice physical distancing, especially while indoors. This means keeping at least 6 feet (two arms lengths) between you and others. Avoid gatherings where people are within 6 feet of each other, and congregating with people at restaurants or bars.
