How to Avoid Rental SCAMS

What is a rental scam?
Rental fraud happens when would-be tenants are tricked into paying an upfront fee to rent a property. In reality, the property does not exist, has already been rented out, or has been rented to multiple victims at the same time.

Helpful Tips
- Never deal with or mail cash
- Demand a written lease
- Meet the landlord in person
- See the apartment in person before signing a lease of transferring funds
- Speak with the current tenants
- Be aware of current market rates
