Renters insurance

Renters' insurance, often called tenants' insurance, is an insurance policy that provides some of the benefits of homeowners' insurance, but does not include coverage for the dwelling, or structure, with the exception of small alterations that a tenant makes to the structure.

It provides liability insurance and the tenant's personal property is covered against named perils such as fire, theft, and vandalism. It also pays expenses, when the dwelling becomes uninhabitable. The owner of the building is responsible for insuring the dwelling itself but bears no responsibility for the tenant's belongings.
